Committee work is one of the most interesting and rewarding experiences many of us have as League members. Most committees study issues relating to their subject areas, conduct activities and recommend position-taking. Others help our League grow. Each committee includes a wide range of activities to select from. Listed below are our existing committees (feel free to suggest new ones), with a few examples of what they do. Please checkmark the following committee(s) you would like to join, and mail to our address below, or simply email us your choices.
